Our Beliefs Remain Unchanged

Education is important

Holistic Education for All

Every Child Matters

What do you see in this picture?

This mighty tree probably began from a little seed....

**Take A Long Term
Perspective....**

Let us prepare every child for the test of life and not just a life of tests.

A Delicate Balance

“Parents need to find the delicate balance between being overly controlling and being completely hands-off. His hope is that parents can work together with teachers to give children the space to grow and the chance to be independent.”

Education Minister Chan Choon Sing on
Educating The Next Generation.

The Straits Times 5 Jan 2024

A 2022 study by the Annie E. Casey Foundation, an American philanthropic institution dedicated to the welfare of children and young people, found that **parental involvement** transcends socio-economic status, student background or the kind of school a student attends in **producing academically successful children**. **However**, the study also noted the phenomenon of “helicopter parents” whose “hovering” involvement over their children does more harm than good. Over-involved, overprotective and controlling parents who “bubble-wrap” their children impede the young ones’ coping skills and capacity for problem-solving; indeed, **over-involvement can actually increase children’s anxiety and reduce self-esteem.**

Re-define The Meaning Of Success

“Everyone's strengths are different, so the definition of success for us would be to cultivate the individual strengths and talents of our students, to give them the opportunities they need to develop them. What's important is to understand our kids better, and encourage them to surpass themselves, and not just focus on surpassing others, especially just in the academic arena. Education in schools can only help to build one's foundation, but the more important indicator of **success is how we continue to learn** throughout the "marathon of life".

Going Forward....

For us to succeed as a nation, every student, every teacher needs to be a *creator*, a *connector* and a *contributor*.

We will highlight four competencies

- adaptive thinking
- inventive thinking
- communication skills - Communication skills are not just about talking and speaking, it is an in depth understanding of others beyond ourselves. It starts with the school community, but goes beyond the school community and Singapore in order for us to deeply understand other people's fears, concerns and aspirations so that we can bring people together to collaborate and work with.
- civic literacy.

Important for parents to:

- Have a Growth Mindset
- Build confidence & resilience in your child
- Teach values, nurture character
- Help your child to enjoy learning & learn for life
- Be an active / participative / involved parent who can strike a fine balance between over protective or simply hands-off.

Our children do best when schools
and parents work hand in hand to
support them

The 3 Ps

Education is important.
We must build a strong foundation.

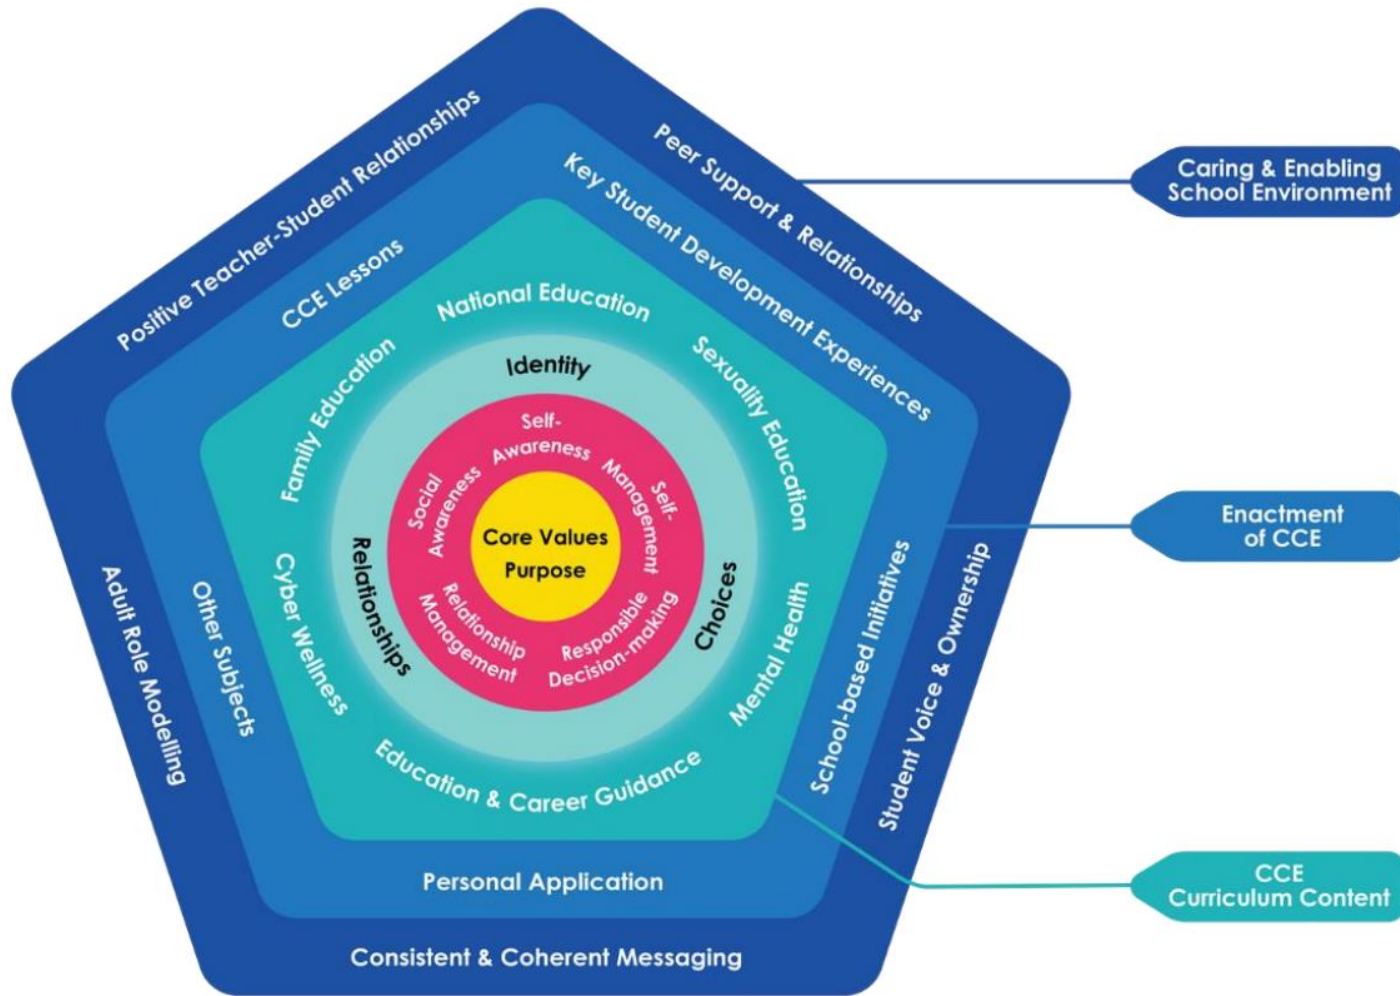

CHARACTER AND CITIZENSHIP EDUCATION

CCE 2021

The CCE 2021 Curriculum Frame
